

# INFORMAÇÃO DE PRODUTO

## CARACTERÍSTICAS TÉCNICAS

### SOFT PRINT COLOR

**Description** Thin PU heat seal material with polyester backing, created for inkjet digital printing & cutting systems with solvent or eco solvent inks. Available with matt or glossy finish. Despite being very thin, the material grants a high covering power on dark fabrics.

Suitable for cotton, polyester, performance wear, poly/cotton blends and spandex, not treated or dye sublimated

- Usage**
- Print and cut the material
  - Weed the exceeding material
  - Remove the print from the polyester backing using Siser's TTD (adhesive, transparent and resistant to high temperatures)
  - Heat apply at the conditions shown on the right
  - Remove the application tape warm (in case of other application tapes, follow specific instructions)

**Washing** Wait at least **24 hours** from application before washing. Washing resistance up to **40°C**, best inside-out. Do not use bleach or other aggressive chemical agents. Not suitable for dry cleaning. Not suitable for tumble dryer.

The product is REACH compliant  
The product is certified Öko-Tex® Standard 100 Class I  
The product is VEGANOK certified

**N.B.** All information here contained are based on our experience. We recommend to perform a test before starting standard production. For best results we suggest to store the product away from sunlight and dust, in vertical position and at temperatures between 18°C and 26°C

 **Average thickness**  
45 microns

 **Suggested cutting settings**  
Blade: 45°  
Pressure: 60 gf  
Speed: 30 cm/sec

 **Transfer settings**  
15 seconds at 155°C (311°F)  
medium pressure (3-4 bar)

Washing temperature

Dry cleaning

Tumble dryer
